

Sprint 1 Plan

“DeliverMe”

Jeffrey Chan (PO)
Daniel Tjandra (Scrum Master)
Avery Sio
Brian Wan
Hasaan Javed
Justin Lau

Sprint completion date: Feb 5, 2018

Revision date: Jan 22, 2018

Goal: To implement a “transactions page” that consist of real time updates conveying locations of requesters and drivers.

Task:

1. (8) As a casual user, I want an aesthetically pleasing interface so that I can easily navigate the website regardless of my computer literacy.
 - a. Task 1: Learning Django framework
 - b. Task 2: Learning HTML/CSS
 - c. Task 3: Making sure that everyone agrees on a website structure
2. (5) As a new user, I want to be given the opportunity to view a tutorial so that I can fully utilize the application.
 - a. Task 1: Discuss with team members on what to put onto tutorial
 - b. Task 2: Discuss with team members on what UI to include

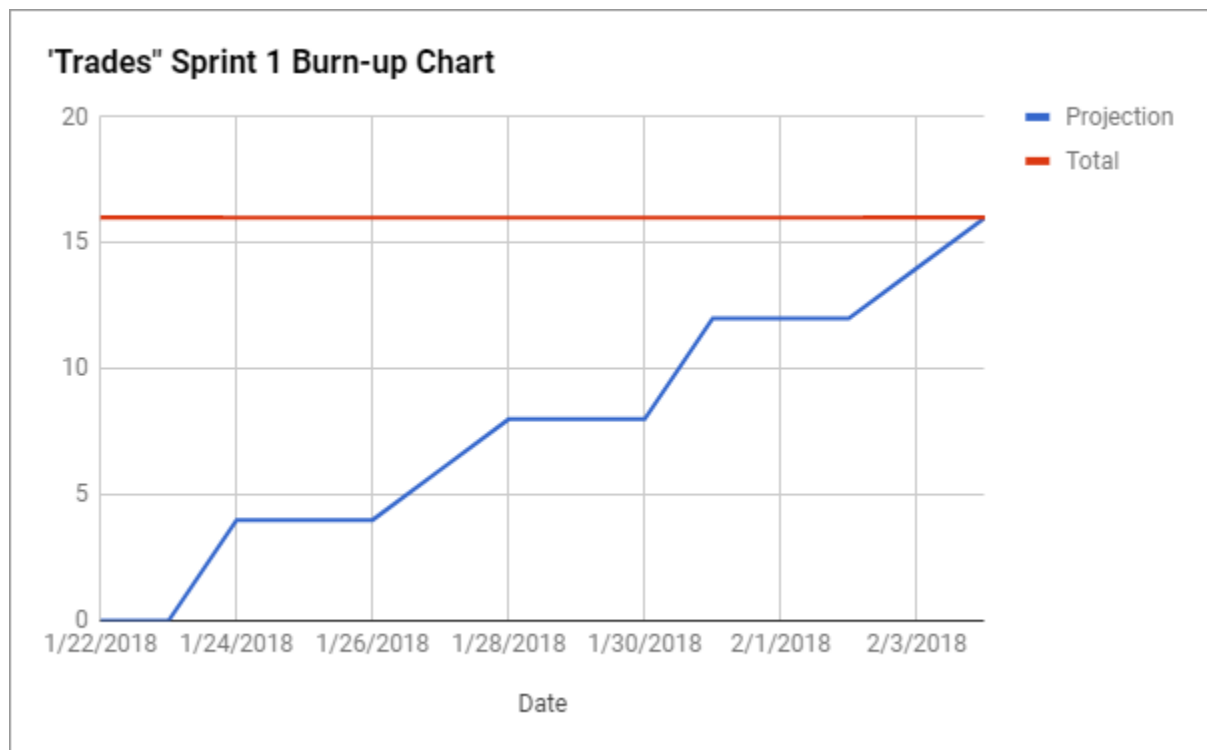

Team Members and Role:
