Actions to stop doing:

- Coming to meetings unprepared.
 - Our members are taking other classes as priorities and so our solo work has been lacking in quality.
- Less Procrastination
 - Procrastinating puts the group behind on time and requires an unnecessary extra amount of effort in the future to catch up.

Actions to start doing:

- Start committing to our Github repository frequently
 - This can cut out many potential merging errors and also can be used to go back if a later version turns out to break and no solution can be found for it.
- Having more consistent communication
 - Will keep everyone up to date for potential problems and solutions

Actions to keep doing:

- Doing individual work outside of meetings, even when we can't actively discuss implementation. More work needs to be done.

Work completed/not completed:

- Work Not Completed
 - Google Maps API functional on a local branch, not implemented on our master
 - Post connection to Maps routing is not functional
 - No wallet functionality; Venmo iFrame is currently used as a placeholder
- Work Completed
 - User accounts settings page has been made
 - The main page needs to have a functional way of adding posts to the database.
 - Chat system functional

Work completion rate:

- **Total number of user stories completed: 2**
 - **User stories completed:**
 - (8) As a non-regular user, I want to be able to see real-time updates around me so that I can find the right “partner” for my request quickly and easily.
 - (8) As a user, I want to be able to login and access my account to set up my profile so that I can more easily communicate with my “partner.”
 - **User Stories not completed:**
 - (5) As a buyer, I want to be able to see driver activity on a map so that I can issue a request to the nearest driver and get my items as quickly as possible.
 - (8) As a driver, I want the website to have a wallet application so that payment for my services will be ensured.
- **Total number of hours/days of the sprint:**
 - Days met within sprint: 6
 - Hours: 2-4 hours/per meeting
 - Total days within sprint: 14
