Actions to stop doing:

- Coming to meetings unprepared.
 - Our members are taking other classes as priorities and so our solo work has been lacking in quality.

Actions to start doing:

- Start committing to our Github repository frequently
 - This can cut out many potential merging errors and also can be used to go back if a later version turns out to break and no solution can be found for it.

Actions to keep doing:

- Having constant meetings and communication
 - Will keep everyone up to date for potential problems and solutions

Work completed/not completed:

- Work Not Completed
 - Have not polished the layout, it is very basic and may not completely support the API's we plan to use.
- Work Completed
 - Finished creating a basic Django skeleton for our project.
 - Created initial templates and layout for the website.

Work completion rate:

- **Total number of user stories completed: 2**
 - **User stories completed:**
 - (8) As a casual user, I want an aesthetically pleasing interface so that I can easily navigate the website regardless of my computer literacy.
 - (5) As a new user, I want to be given the opportunity to view a tutorial so that I can fully utilize the application.

Total number of hours/days of the sprint:

- Days met within sprint: 5
- Hours: 2-4 hours/per meeting
- Total days within sprint: 5
